Updated Forensic Fund Flow Analysis: Missing Bank Statements & New Evidence

Date: 23 February 2026 **Analysis Type:** acc-fund-flow / Statement Gap Identification + Evidence Cross-Reference **Scope:** All FNB accounts across Regima Group entities **New Evidence:** nodes.xlsx, hyperedges.xlsx, events(1).xlsx, FincosysDatabaseSyncReport, Jacqui Evidence Request, PETEFNBDOCUMENT.pdf

---

Critical New Finding: Hidden R5 Million Transfer During "Black Hole" Period

The **PETEFNBDOCUMENT.pdf** reveals a previously unknown banking event that occurred squarely within the Nov 2022 – Apr 2024 gap period:

Field	Value
Document Date	16 November 2023
Account Holder	MR PETER A FAUCITT
ID Number	5204305708185
Email	PETE@REGIMA.COM
New Account Opened	Money Maximiser **63077691682**
Branch Code	250655
Funded From	55270018789 (Pete's Platinum Business Account)
Transfer Amount	**R 5,000,000.00**
Source of Funds Declared	SALARY

> ***This is a R5 million transfer from Pete's existing account to a brand new Money Maximiser account, executed on 16 November 2023 — right in the middle of the 16-month period where we have NO bank statements for any account.*** *The new account 63077691682 has NO statements in the repository and is completely invisible to the financial record.*

Forensic Significance

The transfer raises several critical questions:

1. **Source of Funds Declaration:** Peter declared "SALARY" as his source of funds. As a director of multiple companies, this requires verification against payroll records.

2. **Timing:** The transfer occurred 4 months after Kayla's murder (13 July 2023) and during the exact period where all bank statements are missing across every account.

3. **Account Visibility:** The new account 63077691682 appears only once in the entire fincosys system — as a transfer source in statement #277 of account 55270018789 ("Tel-Banking Trf From Trf From 63077691682"). This means money flowed back from the hidden account to the visible account at some later point.

4. **No Statements Exist:** There are zero statements for account 63077691682 in the repository, the uploaded ZIPs, or the database. The entire lifecycle of this R5M+ account is undocumented.

Updated Account Inventory: Undiscovered & Undocumented Accounts

Accounts with Zero or Minimal Documentation

Account Number	Type	Entity	Statements Available	Status
63077691682	Money Maximiser	PF (Peter Faucitt)	**0**	**COMPLETELY HIDDEN** — R5M transferred in Nov 2023
63176874808	Platinum Business	Unknown Entity	3 (Sep–Nov 2025)	New account, entity unidentified
4483810003374006	FNB Private Wealth Credit Card	PF (Peter Faucitt)	1 (Jan 2021)	Only 1 statement — credit card history missing
4790812427545003	Business Gold Credit Card	RST	1 (Aug 2021)	Only 1 statement — credit card history missing
8812710044279003	Business Credit Card	RST	1 (Jul 2021)	Only 1 statement — credit card history missing

> ***Three credit card accounts*** *(two for RST, one for Peter personally) have only a single statement each. Credit card statements are issued monthly, meaning years of credit card transaction history is missing.*

Jacqui Evidence Request: Key Financial Data Points (17 Feb 2026)

The email from Daniel to Jacqui (CC: Rudi Pottas, Stef, Bobo Mshengu) provides critical financial snapshots that fill gaps in the timeline:

Statement Snapshots Referenced

Date	Account	Entity	Key Finding
2 Jul 2025	62323196362	RWD	Closing balance **~ZAR 5.3 million** — no financial distress
11 Sep 2025	ALL accounts	ALL	**~ZAR 10 million emptied** from ALL Company Current Accounts
11 Sep 2025	55270035642	RST	Statement scan attached
11 Sep 2025	62323196362	RWD	Statement scan attached (2 pages)
11 Sep 2025	62432501494	SLG	Statement scan attached
11 Sep 2025	62423540807	VVA	Statement scan attached

Legal Cost Payments (Precedent-Setting)

Date	From Account	Entity	To	Amount
26 Aug 2025	Villa Via Arcadia	VVA	S Munga (ENS Attorneys)	**ZAR 300,000**
11 Sep 2025	RegimA Skin Treatments	RST	Elliot Attorneys	**~ZAR 90,000**

> *These entity-funded legal payments establish that legal costs were treated as company expenditures, contradicting later claims that Daniel's legal costs should not be funded by the entities.*

Declined Transactions (Claimed "Not Legitimate")

The Applicant declined transactions to **Microsoft, GoDaddy, Google, and Shopify** — all of which are legitimate IT business expenses for an e-commerce operation. This is consistent with the revenue stream hijacking timeline.

Database Sync Status (22 Feb 2026)

The FincosysDatabaseSyncReport confirms the current state of the Neon PostgreSQL database:

Schema.Table	Records in DB
entity_relation.entities	1,267
entity_relation.relations	2,074
event_timeline.events	15,749
hypergraph.nodes	7,204
hypergraph.hyperedges	8,864
integration.entity_mappings	763

Nodes Excel (549 new rows) — Key Observations

The uploaded nodes.xlsx contains 549 records not yet in the main database, including:

- Statement period nodes for accounts **4483810003374006** (credit card) and **4790812427545003** (credit card)
- These confirm the credit card accounts had transaction activity that was captured in the hypergraph model

Hyperedges Excel (22,056 rows) — Transaction Coverage

The hyperedges contain 22,056 transaction records, significantly more than the 8,864 currently in the database. This suggests substantial transaction data exists that hasn't been synced.

Events Excel (2,429 rows) — Event Type Distribution

Event Type	Count
PAYMENT_INITIATED	1,137
TRANSACTION_RECORDED	543
CREDIT_RECEIVED	337
CARD_PURCHASE	254
TRANSFER_EXECUTED	87
FEE_CHARGED	60

Revised Gap Analysis: The Complete Picture

The Three Forensic Gaps

Gap 1: The Historical Void (Pre-2020)

- All accounts missing statements from account opening to approximately January 2020
- For RST account 55270035642: statements #1–#225 (~18 years)
- The uploaded image proves statement #144 existed in Feb 2014
- **Estimated missing: ~1,300+ statements**

Gap 2: The "Black Hole" (Nov 2022 – Apr 2024)

- 16–18 months of missing statements across ALL accounts simultaneously
- **During this gap:** R5M transferred to hidden account 63077691682 (Nov 2023)
- **During this gap:** Kayla murdered (13 Jul 2023)
- **During this gap:** Rynette's son's companies (Adderory, Luxuré, Luxury Products Online) were operational
- **Estimated missing: ~200 statements across all accounts**

Gap 3: The Post-Emptying Period (Sep 2025 onwards)

- Statements exist for Sep 2025 (per Jacqui evidence email) but are NOT in the repository
- The 11 Sep 2025 consolidated report shows accounts were emptied
- Limited coverage after this date
- **New account 63176874808** appears Sep–Nov 2025 (entity unknown)

    └── 3 statements only (Sep-Nov 2025)
```

Summary: What's Missing and Why It Matters

Total Missing Statements by Category

Category	Estimated Missing	Forensic Priority
Pre-2020 historical void	1,300	MEDIUM (historical context)
Nov 2022 – Apr 2024 "Black Hole"	200	**CRITICAL** (R5M transfer, Kayla's death)
Post-Sep 2025 emptying period	50	HIGH (account emptying evidence)
Credit card statements	100+	HIGH (spending patterns)
Hidden account 63077691682	ALL	**CRITICAL** (R5M completely undocumented)
Unknown account 63176874808	Most	HIGH (entity unidentified)
TOTAL	**1,650+**	

Immediate Actions Required

1. **Request all statements for 63077691682** from FNB — this R5M account is completely undocumented
2. **Request credit card statements** for all three CC accounts — only 1 statement each exists
3. **Identify entity for 63176874808** — new Platinum Business account opened Sep 2025
4. **Obtain Sep 2025 statement scans** referenced in Jacqui email — they prove the emptying event
5. **Fill the Nov 2022 – Apr 2024 gap** — this is the most forensically critical period
6. **Sync the 22,056 hyperedge records** from the Excel to the database — significant data not yet in DB

7. **Sync the 549 node records** from the Excel to the database

Evidence Chain for Fund Flow Tracing

The R5M transfer creates a clear evidence chain that must be traced:

```
[Source Unknown] → 55270018789 → R5M → 63077691682 → [Destination Unknown]
                                                        │
                                                        └── Partial return
to 55270018789 (stmt #277)
```

The complete fund flow for this R5M cannot be established without statements for account 63077691682. This is the single most important missing piece of evidence in the entire financial ecosystem.
