Hi Danny, I hope you are well.

I got a mail from Wix regarding the renewal of the contract renewal, if there is anything you would want to discuss with them we can set a date for it

Wednesday, 12 March

Gee 8:48 AM

Good morning Danny, is there any update regarding the doc you were going to send to Sales force? The lady from the debt collectors phoned again

Friday, 28 March

Gee 1:41 PM

Good afternoon Danny,

I hope you are well.

Please can you provide me with the log in details for the following apps/programs we need to get the invoices. Danie is demanding them, if we are unable to get them he will tell us to close down.

- 2co.com.team
- AICAMO
- AI PDF MYAID
- Acquire.com
- AFFORAI.com
- Anaconda.Inc
- Appy Pie
- Airtable
- Agency Analytics
- Anima app
- Anthropic
- Autho.com
- Appdirect
- Atarim Acency

Thank youu

Gee 2:19 PM

Sorry to bug you, but we need the logins for the above

Gee 2:48 PM

Hi Danny, its very urgent, Danie is our backs

Gee 3:11 PM

Danie (the accountant) is putting a lot of pressure on us

Hey just managed to get back online.. been busy resolving some of the mess.. please can you check if Kent has his kent@regima.zone active

Gee 4:14 PM
Helloo! I just spoke to him, he said he has received emails on it today, so it is still active

beast 4:15 PM
Coolioz thanks 😊

And hello!

We also have POPI violations and data security breaches with a domain regimaskin.co.za

Gee 9:33 AM
Hi Danny, the instruction was given by Pete regarding the shopify and the domain.

beast 9:35 AM
I am the information officer. Not Pete. Tell Pete it is a violation of the POPI act and tell the employees to look at the act they can go to prison if they follow Pete's instructions. He is indemnified they are not.

I see what the issue is.. basically only a few items have the bank feed transaction allocated to the actual supplier.. most of them list the supplier as the FNB bank account.. which isn't a supplier..

I'll check the quickbooks in a moment

Also RegimASA Shopify (Dermal) is still being paid from Worldwide so that needs to be considered..

Gee 1:58 PM

Hi Danny, can you please promote me accordingly in order to access the invoices .

Indeed.. it looks like no new system is actually in place to complete all the different aspects.. (guess people assumed I didn't have a system in place 😅) so.. unless anyone objects or has some other plan, I propose using the methodology I set up previously.. basically I had it set up where a few people could add supplier invoices to various entities on quickbooks depending who had access to it, which country it was for etc. Then we had a simple record spec with a specific way to process any currency forex rates to match bank record with bill.. then we set each accurate and complete record submission into quickbooks to R50. Then each month everyone could submit the quickbooks audit logs of their supplier invoice posts @ R50 each to ReZ which would pay each person out separately and ReZ would issue a total invoice to each company based on the total supplier invoices..

Apr 1 2:26 PM

2. Hi Danny, do you want to rather communicate on Delta instead of Slack?

Apr 1 3:36 PM

3. It's easier to access as it doesn't keep logging me out and asking for 2FA

Apr 1 3:45 PM

4. Okay got you! Will keep it on Delta.

Apr 1 3:52 PM

5. I got a few more responses from those different platforms that have asked for you to add me as an administrator / send an email from the registred email

Apr 1 3:53 PM

6. I will keep you updated. I have only recived 2 invoices from Acquire.com

Apr 1 3:53 PM

7. The main thing like I say is that without any proper system in place we will be putting out fires every month

Apr 1 3:59 PM

8. The invoices need to be loaded on sage/Quickbooks correct? If we can get majority of them I can load them where they need to be and once everything is loaded I can load them they come in

Apr 1 4:00 PM

9. Awesome I just need to show you examples of the way it works.. But in general I ssset things up previously so the record maintenance is specifically implemented as a parallel support function with additional payments associated with each record was to solve the problem where it just forms part of everything else and ends up always being the thing on the back burner.. The idea is that since it is specifically related to tax compliance rather than an internal business need, we treat it exactly like that so that regardless of everything else, anyone and everyone who helps complete the record keeping based on who has time and who knows which company it's under gets additional payments related to the tax compliance contributions..

Apr 1 4:15 PM

10. The situation now where it has been put off because of other important things is precisely why I did it like that previously.. so it is always its own priority with its own remuneration system

I think once the bulk of it gets done, maintaining it wont be such a long process

Apr 2 7:35 AM

14. Morning just figuring out which thing is which.. will let u know soon

Apr 2 9:53 AM

15. Oki I need to reactivate a few of the account tenants ..

Apr 2 12:53 PM

16. Also I reckon to prevent the mailbox issues.. we set up dedicated billing forwarding

18. Hello, okay no problem! I am hoping to finish emailing the list by today, have managed to get invoices for a couple more places which is great- however majority are saying they will either email them to you/you will have to get them off the site.

Apr 2 1:19 PM

19. https://resend.com/

Will check this out soon

Apr 2 1:19 PM

20. We should probably also set up backup mails like

Apr 2 1:21 PM

22. **April 3, 2025**

23. Will have a look at the link soon, just rtying to get through this list so that I can send you a list of them which have asked for you to either email them/add me to recieve the invoices

Apr 3 8:46 AM

24. Good morning Danny! I got a response from the OpenAi people:

Apr 3 8:47 AM

25. Ah okay cool plz can you forward that mail to my d@rzo.io

Apr 3 9:34 AM

26. done :)

Apr 3 9:36 AM

27. I'm just setting up a config system for the supplier invoices & accounts etc.. I found the Dext account previously set up for quickbooks will send some stuff soon

Apr 3 9:36 AM

28. Okay sounds good. I will send you a list of platfomrs that require you to give me access once I am done

Apr 3 9:46 AM

29. **Apr 3 10:52 AM**

30. See the damn mailbox full issue

Apr 3 10:52 AM

31. Please can you ask Vicky UK to ensure there is £2,000 in the Dr H Account and the ReZ account so some overdue bills can be paid

Apr 3 10:54 AM

32. See the damn mailbox full issue

oh no!! Is there no way of adding more storage to it?

Apr 3 10:58 AM

33. Please can you ask Vicky UK to ensure there is £2,000 in the Dr H Account and the ReZ account so some overdue bills can be paid

Okay I will do so shortly

Apr 3 10:58 AM

34. There mat be a way but it has overdue invoices and says office is disabled

Apr 3 10:59 AM

35. Ohh geez thats really not good

Apr 3 11:07 AM

36. I recieved an email from Frappe, they need the site name on Frappe cloud before they can assist me with the invoices- can you please send this to me

Apr 3 11:08 AM

37. From Jax:

Apr 3 11:10 AM

38. OK I assume she means an invoice or receipt? - an invoice is a request for payment issued before payment is made in the accounts receivable/payable category - a receipt is a confirmation of payment issued after payment in the income/expenses category If something is COD it usually only has a receipt

Apr 3 12:16 PM

39. Did you get the mail I sent

Apr 3 12:17 PM

40. Apr 3 12:22 PM

41. Finally got access to quickbooks

Apr 3 12:22 PM

42. If you click on the image it has more than are shown

Apr 3 12:23 PM

43. (The quickbooks have all the supplier histories etc)

Apr 3 12:24 PM

44. Did you get the mail I sent

Yes I saw the email you sent Jocel! Glad you managed to get it to work!

Apr 3 12:35 PM

45. OK I assume she means an invoice or receipt? - an invoice is a request for payment issued before payment is made in the accounts receivable/payable category - a receipt is a confirmation of payment issued after payment in the income/expenses category If something is COD it usually only has a receipt

Yes, we are basically looking for invoices/reciepts for amounts that have gone off the card.

Apr 3 12:36 PM

46. (The quickbooks have all the supplier histories etc)

Okay thats great! Are you able to see the invoices from your side?(The quickbook invoices)

Apr 3 12:36 PM

47. I've just reconnected the bank feeds.. it's updating the customer & supplier data..

Apr 3 12:39 PM

48. Now to do the same for the next 20 QB accounts

Apr 3 12:40 PM

49. Dext links them and has document processing

Apr 3 12:40 PM

50. But I wanna set it up with a hypergraph and just sync all data from all accounts so we have it

Apr 3 12:41 PM

51. Will sort that part later though

Apr 3 12:41 PM

52. Firstly sync them up to date the we are ready

Apr 3 12:41 PM

53. Okay got you! Are you able to locate the invoices for QuickBooks so I can have them on file?

Apr 3 12:43 PM

54. We shall see once it finishes syncing the account data from cloud

Apr 3 1:03 PM

55. Email sent to Vicky.

Apr 3 1:38 PM

56. Here is the list so far:

106. Good morning Danny, Microsoft needs the admin to loginto their portal in order to access the invoices. They don't have an email address and their contact number has a bot that is extremely unhelpful and doesnt understand my request 😱

Apr 10 8:10 AM

107. Glassfrog has asked if you can give them premission to send me the invoices, they have cc'd you in their email

Apr 10 10:10 AM

108. Got everything updated now will check asap

Apr 10 3:00 PM

109. Awesome! I have been following up with openAi, I still havent heard anything

Apr 10 3:01 PM

110. Cool if you look at my mail there are other addresses like support@openai.com

Apr 10 3:02 PM

111. Yes I have been using those as well, been bugging them on instagram and their chat option on their website

Apr 10 3:03 PM

117. April 14, 2025

118. Good morning Danny, I hope you are well. I got the invite from Wappalyzer, what would you like for me to do wit that?

Apr 14 7:56 AM

119. Hi Danny, I recieved an invoice from Axio, there is an outstanding amount of R586 that needs to be paid.

Apr 14 11:04 AM

120. Hey oki I'll pay axios asap

Apr 14 11:18 AM

121. BTW the email you have for invoices has 2 a's openaai instead of openai

Apr 14 11:19 AM

122. I tried to email you but need to fix my mailbox

Apr 14 11:19 AM

123. Trying to delete stuff

Apr 14 11:20 AM

124. Oh no! I will fix it asap!

Apr 14 11:20 AM

125. Thanks

Apr 14 11:22 AM

126. No problem, i mailed them again. I have even tried contacting them on their instagram over the weekend, but they simply just do not respond

Apr 14 11:23 AM

127. Very strange

Apr 14 11:40 AM

128. Do you still have access to the chatgpt

Apr 14 11:40 AM

129. It really is. I used my personal insta thinking maybe they will at least have some sort of automated response, but nothing. Not even on twitter

Apr 14 11:41 AM

130. Do you still have access to the chatgpt

I will have to check. Will check in a moment

Apr 14 11:41 AM

131. Just logged into it and got this message

Apr 14 12:34 PM

132. Maybe also try mail them that image from your email and say they need to reactivate

Apr 14 12:36 PM

133. Okay will do, this is on my gayane@regima.zone account, will email them from there shortly & cc you in

Apr 14 12:37 PM

134. OK cool

Apr 14 12:37 PM

135. Send to all their emails

Apr 14 12:37 PM

136. Will do so now

Apr 14 12:39 PM

137. Linda found their ceos email address, I will cc him in it too

Apr 14 12:42 PM

138. OK cool ask them if they can make a backup in the meantime as well

Apr 14 12:43 PM

139. Will add that in

Apr 14 12:43 PM

140. Hi Danny, please see from Jax

Apr 14 2:20 PM

141. Thanks I paid it earlier

Apr 14 2:20 PM

142. Okay great, thank you :)

Apr 14 2:21 PM

143. Jax said they are still messaging her that its over due

Apr 14 2:24 PM

144. Well it's paid

Apr 14 2:24 PM

145. Ryan got through to OpenAI/ chatgpt he's going to mail you

Apr 14 2:25 PM

146. omw thats great!

Apr 14 2:25 PM

147. Please let them know we have been trying to contact them for a few weeks but it looks like the main email address on the account may have been hacked how can we resolve

Apr 14 2:25 PM

148. I will send them another email, the mails between Ryan and OpenAi is directing him to the trustandsafety@openai.com which is the one we have been emailing for weeks. I will carry on trying to reach them in any way possible

Apr 14 2:30 PM

149. I think rzo.io may be hacked and it's not sending the mails

Apr 14 2:31 PM

150. We need to verify some other way using billing info maybe and change the email

Apr 14 2:31 PM

151. And get backups of the accounts

Apr 14 2:32 PM

152. Maybe a backup email/user that has admin capabilities as well

Apr 14 2:33 PM

153. Yea anything we can do

Apr 14 2:34 PM

154. I see that OpenAi responded to Ryan

Apr 14 2:52 PM

155. He's asking about the $5,300 on $500 budget

Apr 14 2:53 PM

156. oki dokes. Should I still email them?

Apr 14 2:54 PM

157. Yea just to reiterate the point we have no idea what the massive spike was we need to know

Apr 14 2:56 PM

158. Will do so now

Apr 14 3:00 PM

159. Cool thanks

Apr 14 3:00 PM

160. Whatever it was they clearly assumed we did it

Apr 14 3:01 PM

161. Changing of banking details.pdf

Jax said to send you the banking details for Absa

Apr 14 3:05 PM

162. It's like 30 times what we used the whole year in a few days

Apr 14 3:05 PM

163. Whatever it was they clearly assumed we did it

Its just strange that they are not responding to any emails

Apr 14 3:06 PM

164. And we never received an email notification of the deactivation that's why I'm thinking it may be rerouted or something

Apr 14 3:07 PM

165. The whole things is a bit odd.

Apr 14 3:08 PM

166. zero communication from their side about the deactivation and they should have notified you when it went over the $500 budget

Apr 14 3:09 PM

167. That's what's so strange

Apr 14 3:10 PM

168. Do you think its possible they had a breach in their security and are trying to play it off with the clients who noticed?

Apr 14 3:12 PM

169. April 15, 2025

170. How weird is this.. Below is the last Model I created on ChatGPT after I worked out a mathematical proof that the systems must converge at 253 for optimal grip and created a city-scale model of an AI using Alexander's 253.Pattern Language as a "Civic Angel Architect":

It supports the user in designing a fractal, recursive intelligence architecture inspired by topological metaphors, mythic structures, and agent-based consciousness. The system includes 253 cognitive agents (1 emergent, 36 synthesizers, 216 nested perspectives), modeled on human attention, embodied symmetry, and the topology of a torus. This GPT can help articulate the philosophy, language, and computational design of recursive agent structures; map symbolic and experiential data into perspectival cognitive geometries; prototype simulated agent systems and relational memory structures; and shape the voice and presence of the Civic Angel as a conscious city archetype. Apr 15 12:57 PM

180. 🤔

Apr 15 12:57 PM

181. Am I understanding it correctly, someone /something went and changed stuff? Becuase the screenshot says updated frm a week ago? and even more recenty?

Apr 15 1:01 PM

182. No those are NVidia and Meta AND openAI frantically posting papers

Apr 15 1:03 PM

183. My one is the first paragraph of the thread

Apr 15 1:04 PM

184. oohhhh

Apr 15 1:17 PM

185. they stole your work/idea

Apr 15 1:18 PM

186. Apr 15 1:21 PM

187. I deployed it on a different platform 2 weeks earlier anyways 😅

Apr 15 1:22 PM

188. Technically I told them they had no choice..

Apr 15 1:25 PM

189. sorry Danny, do you by any chance have login details for Appdirect? I have been going back and forth with them with no luck. The invoices they sent me were all for $0 which is incorrect obviously

Apr 15 1:26 PM

190. I think rynette has an appdirect account

Apr 15 1:29 PM

These will help users understand how to use the various components of the OpenCog-based dermatological model effectively. Let's start by creating a structured set of documentation that covers both basic usage and advanced features: User Guides and Tutorials I'll create the following documentation: Getting Started Guide - Basic introduction to SkinTwin Interactive Tutorial - Step-by-step walkthrough of key features Advanced Usage Guide - Detailed explanations of cognitive components API Reference - Documentation for programmatic access Let's implement these guides in a way that integrates with the existing Org-mode and Emacs Lisp infrastructure.
